REASONS FOR ALLOWANCE

1. Claims 1-4, 11, 14 and 16-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: the claimed invention is directed to a combination of a personal digital assistant and a mobile telephone device for operation in multiple applications. Independent claim 1 identifies the uniquely distinct features, "wherein said panel is connected to said body by means which allow said panel to be pivoted, when in the second position, in a full range of motion that enables said panel to be reversed so that said display faces said upper face for protection; and a pair of side decks constructed in the body on either side of said text keyboard, at least one of said side decks having a keypad for use with said mobile telephone", last 8 lines of claim 1. The closest art, Aho et al (WO 01/39226 A1, cited in IDS filed on 8/19/2004), discloses a related combination of a personal digital assistant and a mobile telephone device for operation in multiple applications, comprising a body (3), a text keyboard (4), and a panel (2) having a screen (5) and slidably mounted above the text keyboard for movement, between a first position (see fig. 2) and a second position (see fig. 1), fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.
